## Arcus Storage Fridges & Storage Freezers

Tried and tested across WA and designed to offer longevity in the harsh Western Australia climate, the CU and CUF series are made in WA and offer excellent and proven components married perfectly with exemplary construction to offer fridges and freezer that should outlast all others.

Available in 5 standard sizes, (fridge), 3 standard sizes (freezer) or custom made to your needs

Automatic condensate removal

Self closing doors with magnetic gasket.

Automatic defrost

Heated opening on all freezers

Every unit is subjected to a 24 hour performance test before dispatch from our factory.

Lockable front castors

External digital temperature display for continuous monitoring. Includes min/max memory, audio and visual alarm on temperature deviation and light controls.

Forced air cooling offers maximum temperature stability and rapid recovery after every door opening.

Fridge maintains internal air temperature of +2°C to +4°C in 40°C ambient temperatures

Freezer maintains internal air temperature of -20°C to -16°C in 40°C ambient temperatures

### OPTIONS / UPGRADES.

- Internal data logger to keep long term records on temperature fluctuations.
- Stainless steel or alternate colour exterior.
- Legs instead of castors.
- Remote refrigeration system.

Model	Type	Doors	Litres	Dimensions (mm)			Power
				Width	Depth	Height	
CU/1PM	Fridge	1	230	565	570	1540	2.6 amp
CU/1SM	Fridge	1	400	700	625	1820	2.6 amp
CU/1M	Fridge	1	560	740	810	2070	3.1 amp
CU/2M	Fridge	2	980	1200	810	2025	3.4 amp
CU/3M	Fridge	3	1515	1800	810	2070	3.5 amp
CU/1F	Freezer	1	560	740	740	2070	4.9 amp
CU/2F	Freezer	2	980	1200	810	2070	7.6 amp
CU/3F	Freezer	3	1515	1800	810	2070	10.9 amp
