hot food bars

FOOD DISPLAY SERIES

With optional sneeze guard

Multiple element design

Quartz infra-red overhead heat lamps

Precise thermostat control

APPLICATION

Ideal for the displaying of pre-cooked foods and easy access for self serving

STANDARD FEATURES

- Includes a tapered, symmetrical, toughened glass gantry to allow access from both sides
- Stainless steel construction with dual skin air-insulated bain marie tank for improved safety
- Multiple element design means unit will continue to operate in the event of single element failure
- Thermostat controls with clear temperature readout
- 15mm drain with downward emptying tap
- Overhead heat lamps wired to maximise light, heat and reliability - with lamp guard
- Full size gastronorm cavity to take choice of 65mm and 100mm pan combinations (pans not included)
- Easy to service via rear access panel
- Identical footprint to other Woodson food bar models
- Can be run both wet and dry
- 3 bay supplied with 10 amp plug & lead
- 4, 5 & 6 bay supplied with 15 amp plug & lead

OPTIONS

Easy to accessorise:

- Rear glass sliding doors (add G to code)
- 1/2 GN pans, 65mm deep (add 65 to code)
- Trolleys & trolley accessories
